Sharing Across The Veil
both @
.wordpress.com

We put together the very first Isis Scrolls print magazine in October 2001. The Isis Scrolls seeks to inspire and educate the members of our community about our uniquely skilled and gifted healing arts practitioners and the rich variety of integrative healing modalities that are available to us. The Isis Scrolls is a vessel through which the voice and the heartbeat of the innate healing wisdom that lives in each of us, can be experienced. Our intention is to offer a wide variety of quality information that will support all of us on our healing paths by providing tools and resources for personal growth, awareness and self-empowerment. Sharing our stories, wisdom, gifts and skills strengthens the overall health of our community. The Isis Scrolls has a new greener footprint!

Our print magazine is now printed locally on 100% recycled paper with soy-based ink.
