ISIS, Our Inspiration

Isis is the feminine archetype for creation - the goddess of fertility and motherhood. She has gone by many names and played many roles in history and mythology - as goddess and feminine creator.

In the duality of our reality, she represents our feminine aspects; creation, rebirth, ascension, intuition, psychic abilities, higher chakras, higher frequency vibrations, love and compassion. She is the Yin energies, the mother nurturer, the high Priestess, the Goddess of all mythological tales - to other female icons in the mythos of creation. She is the essence of the feminine energy which is part of us all.

The Isis Scrolls print magazine and IsisScrolls.com is a free bi-monthly magazine offered to provide tools and resources for personal growth, awareness and self-empowerment.

Through articles, networking, resources, ads, directory listings, and event calendars, our intent is to offer a wide variety of quality information that will support you, the reader, on your own healing path. All opinions found within are those of the authors and not necessarily those of the publishers or publication. The reader has the choice to ponder, embrace, or release what they find throughout these pages. May it be beneficial to you!

We are supported by our healing community through paid advertising and donations of articles and time. For more information, please contact us at The Isis Osiris Healing Temple at (707) 825-8300 or [click here](#) to submit your inquiry online. Your comments and feedback are welcome.

Once you complete an issue, please pass print magazines and forward our online magazine along to friends, family, and acquaintances of whom you feel would enjoy and benefit.
